Professional Summary

Full-Stack MERN Developer with hands-on experience building scalable web applications using React.js, Node.js, Express.js, MongoDB, and TypeScript. Skilled in developing secure RESTful APIs, database design, authentication, API integration, and performance optimization. Experienced with JWT, Redis caching, WebSockets (Socket.io), and cloud-based deployments. Strong understanding of OOPs, Git workflows, debugging, and writing clean, maintainable code.

Experience

Navigant Technologies	Delhi
<i>Web Developer Intern</i>	<i>June 2026 – Present</i>
- Developed and maintained full-stack MERN applications using React.js, Node.js, Express.js, MongoDB, and TypeScript. - Built and integrated RESTful APIs, managed MongoDB database connections, and improved backend functionality. - Debugged and resolved production issues including API errors, UI bugs, deployment issues, and application performance problems. - Contributed to the VerifyMyKYC platform by developing backend features, integrating verification APIs, and improving secure KYC workflows. - Managed production deployments using Hostinger cPanel, configured live application updates, and maintained stable website functionality. - Collaborated using Git/GitHub workflows for version control, bug fixes, and continuous application improvements.	

Technical Skills

Programming: JavaScript (ES6+), TypeScript, Java
Frontend: React.js, HTML5, CSS3, Tailwind CSS, Context API, React Router, Responsive Web Design
Backend: Node.js, Express.js, RESTful APIs, Socket.io, JWT Authentication, MVC Architecture, API Integration
Database & Caching: MongoDB, Mongoose, Database Design, Indexing, Redis
Tools & Technologies: Git, GitHub, Postman, Vercel, Hostinger cPanel, Clerk, bcryptjs, Stripe API, Gemini API

Projects

InsiderJobs <i>React.js, Node.js, Express.js, MongoDB, TypeScript, Clerk, Cloudinary</i>	Live Demo GitHub
- Developed a full-stack job portal with role-based access control (RBAC), enabling recruiters and job seekers to manage jobs, applications, and resumes. - Built secure RESTful APIs with authentication workflows and integrated Clerk with Svix webhooks for real-time user synchronization. - Implemented recruiter dashboard features with Quill editor, Cloudinary media storage, optimized database operations, and Sentry error monitoring.	
PromptStack <i>React.js, Node.js, Express.js, MongoDB, Socket.io, Redis, Stripe, Gemini API</i>	Live Demo GitHub
- Built a production-ready AI SaaS platform with real-time conversational AI, image generation, and secure user authentication. - Implemented WebSocket-based streaming using Socket.io with Redis caching to improve chat performance and user experience. - Developed a credit-based payment system using Stripe Checkout and Svix webhooks with JWT authentication and ImageKit integration.	

Education

Babu Banarasi Das University	Lucknow
<i>Master of Computer Applications (MCA)</i>	<i>2024 – 2026</i>
SGPA: 8.0	
Microtek College	Varanasi
<i>Bachelor of Computer Applications (BCA)</i>	<i>2021 – 2024</i>
Percentage: 75%	

Certifications

100xDevs Cohort 3 – Full Stack Web Development (July 2024): Completed hands-on training in full-stack application development using modern JavaScript, React.js, Node.js, backend architecture, REST APIs, database management, and scalable web applications.
